

COMMONS REGISTRATION ACT 1965

Reference No. 214/U/30

In the Matter of The Village Green at East End, East
Woodhay, Hampshire

DECISION

This reference relates to the question of the ownership of land known as The Village Green at East End, East Woodhay, being the land comprised in the Land Section of Register Unit No.VG.201 in the Register of Town or Village Greens maintained by the Hampshire County Council of which no person is registered under section 4 of the Commons Registration Act 1965 as the owner.

Following upon the public notice of this reference the East Woodhay Parish Council claimed to be the freehold owner of the land in question, and Mr B J Lloyd claimed to have information as to its ownership.

I held a hearing for the purpose of inquiring into the question of the ownership of the land at Winchester on 25 October 1983. At the hearing the East Woodhay Parish Council was represented by Mr J Webb, its Clerk.

Mr Webb put in a statutory declaration by Mr Leslie Partridge, who has lived in East Woodhay for 56 years. It may be that if it had been possible to examine Mr Partridge further, he would have been able to give evidence which would have satisfied me that the Parish Council had acquired a possessory title to the land, but what he says in his statutory declaration is insufficient for that purpose.

Mr Lloyd helpfully put his argument into writing, and a copy of it is attached to this decision.

On the evidence before me I am not satisfied that any person is the owner of the land, and I shall accordingly direct the Hampshire County Council, as registration authority, to register the East Woodhay Parish Council as ~~registration authority~~, ~~the East Woodhay Parish Council~~ as the owner of the land under section 8 (3) of the Act of 1965.

I am required by regulation 30 (1) of the Commons Commissioners Regulations 1971 to explain that a person aggrieved by this decision as being erroneous in point of law may, within 6 weeks from the date on which notice of the decision is sent to him, require me to state a case for the decision of the High Court.

All type is copied from gravestones and it has an entirely different meaning to that given in the dictionaries. The Deaf and Dumb make the shapes of the Ogham alphabet as found on the Rhunes in Scotland and have not communication barriers anywhere in the world.

The Peerage, Legal profession and the High Priests use a simpler language that makes them mentally defficient because they cannot understand the Common language as used in Common Prayer, in Religions the compulsory subject in education and as used by the House of Commons to make laws so they openly break the laws of society and teach their language to other to increase crime until nations become extinct.

The matter before us today concerns the ownership of Common Lands.

I understand that all commoners speak the Common language and that no effort has been made of any kind to notify the commoners that this meeting is taking place with the result that not a single commoner is here today

As the Master Mason of Bedwyn a position that was originally know as King's Mason I beg to inform you that I rule the world with the ornament of architecture in the Common language without thought of financial gain.

It would surely be correct that I claim this Common Land for all commoners who speak the common language and in general they usually do not read or write.

It is obvious that the Commoners shall not use the ownership of the Common Land for financial gain merely to create law and order

a most serious problem exists in that the Commissioner in charge of the hearing has no knowledge of the Common Language of the Commoner. It is usual for a man who has been educated in the simpler academic language to state that he has no knowledge of the language of the Commoner and because he does not understand it, it does not exist. He therefore as is customary will state that he ignores article 24 of the Church of England and because some 97% of the nation have been brainwashed in the simpler academic language the simpler academic language is in order to be used.

But one thing is forgotten. All the extinct civilisations tell us in the Common Language that the language of the Peerage, High Priests and Legal Profession causes crime and the downfall of man. Technically in the laws of sound the academic language is slightly higher pitched and slightly faster and slightly more eloquent will easily prove that the academic language even when wrong will prove itself right even when it is the Common Language is Right.

If any problem exists in deciding that the illiterate commoner own these lands then we must assemble another court of enquiry composed entirely of the 97% of the nation who have not been brainwashed in the academic language that causes the downfall of man

Ben J. Lloyd
